

TOGETHER TIME

Congratulations for making TOGETHER TIME to be with your family!

What you will need:

- One Game Board
- One Player Sheet per person who is playing
- A set of dice (If you don't have your own, you can download a set to print here: <http://www.crayola.com/free-coloring-pages/print/personalized-paper-dice-coloring-page/>)
- Pencils or pens for making the Player Sheets

How to play:

- Start play with the youngest player.
- On your turn, roll the dice. On the Game Board, answer the question or complete the task written on the number you rolled on the dice. Once you have answered the question or completed the task, check the box for that number on your Player Sheet. (**Note:** Because you can't roll a "1" with two dice, once a player has checked off all numbers between 7-12, then should start rolling just one dice with each turn.)
- If you roll the dice and have already checked off the number you rolled, your turn is over, and the next person will go.
- Variation: You may choose as a family if you want to make a rule that anyone who rolls doubles on the dice gets to go again.
- The person who checks off all the boxes on their Player Sheet first wins!
